Company Profile

PT. HARTA DJAYA KARYA Tbk.

Bring your vision into creation,
designed to your satisfaction

Trends shift, but great design endures. Since 2011, INTERRA has been a Jakarta-based partner for clients who want their spaces to work harder, feel sharper, and last longer. We specialize in three connected disciplines - interior construction, interior design, and custom furniture - delivered by one team, under one standard.

What we do for our clients

We turn briefs into spaces that people remember. Every project begins with listening: to your business, your users, and the way your space needs to perform. From there, our multidisciplinary team takes the work from concept through construction and handover — with the detail, quality, and technical precision that define our craft.

How we work

The best outcomes come from genuine collaboration. We treat your project as a partnership, not a transaction. That means clear communication, realistic timelines, and a single point of accountability from first sketch to final walkthrough. Our values guide every decision we make:

CARE Compassion, Attention,
Responsibility, Excellence.

Why clients choose us

Fifteen years of delivery across commercial, hospitality, and residential projects have shaped how we work. Design, build, and custom furniture sit under one roof, removing the friction of juggling multiple vendors - with a single point of accountability from first sketch to final walkthrough. Local craft, international standards: quality that competes globally.

Manufacture

To support our core activity, we established a company specializing in manufacturing furniture with solid timber, veneer and, high-pressure laminated sheet.

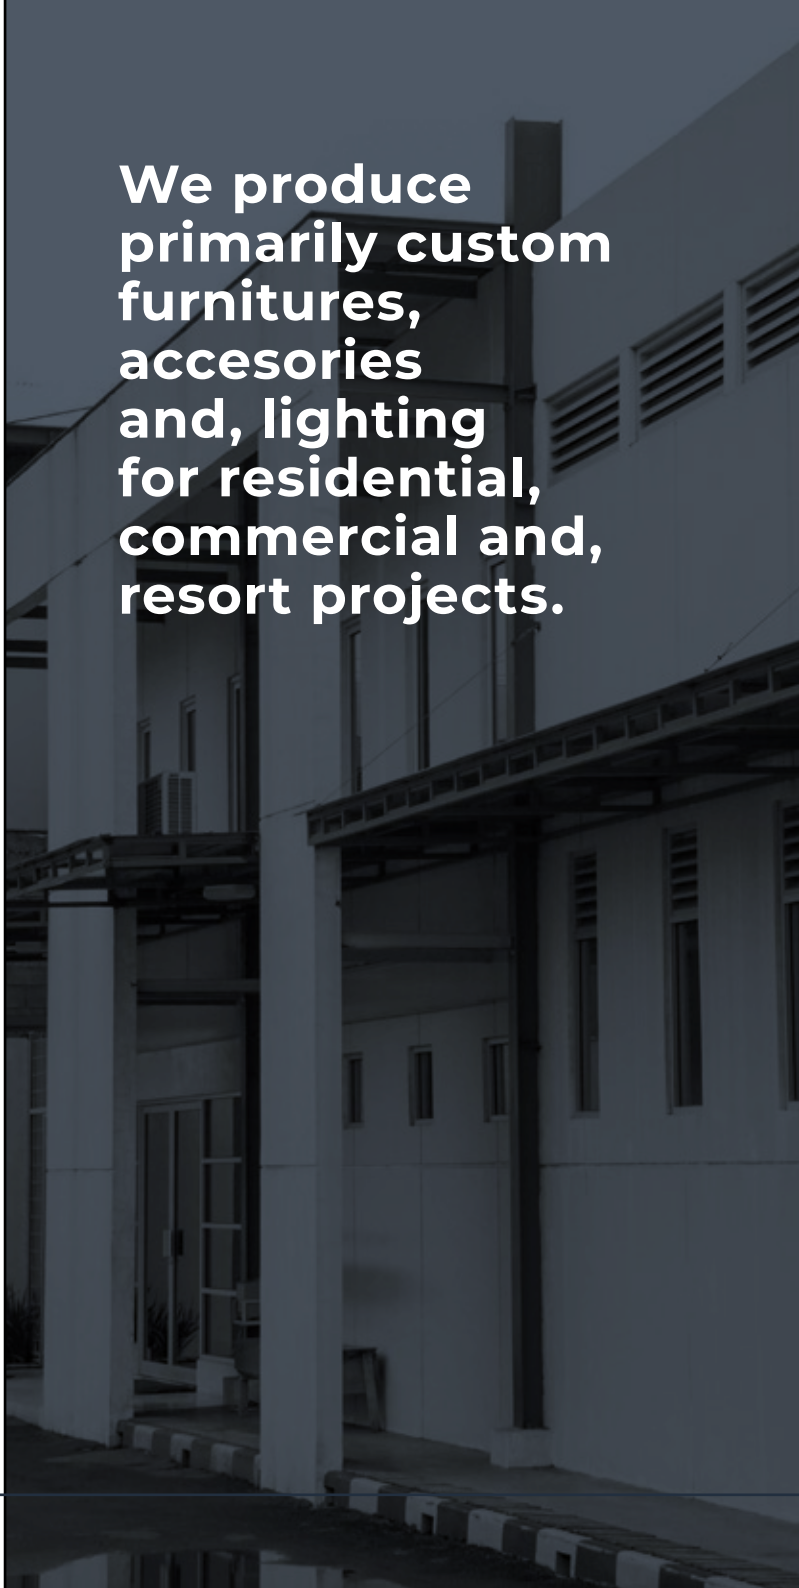

Over the past years, the company has earned its reputation as Indonesia's leading manufacturer and exporter of custom and contract furniture. We have been entrusted by world-renowned clients including the Bvlgari Hotel, the Aston Hotel Group, the Accor Hotel Group and, Singapore Airlines Affiliate Hotel.

Facilities & Materials

We have invested our business by developing new facilities. Our factory is equipped with the machinery and technology designed to produce quality furniture. As part of our basic rule, we use kiln-dried and legal government- timber. We have invested our business by developing new facilities.

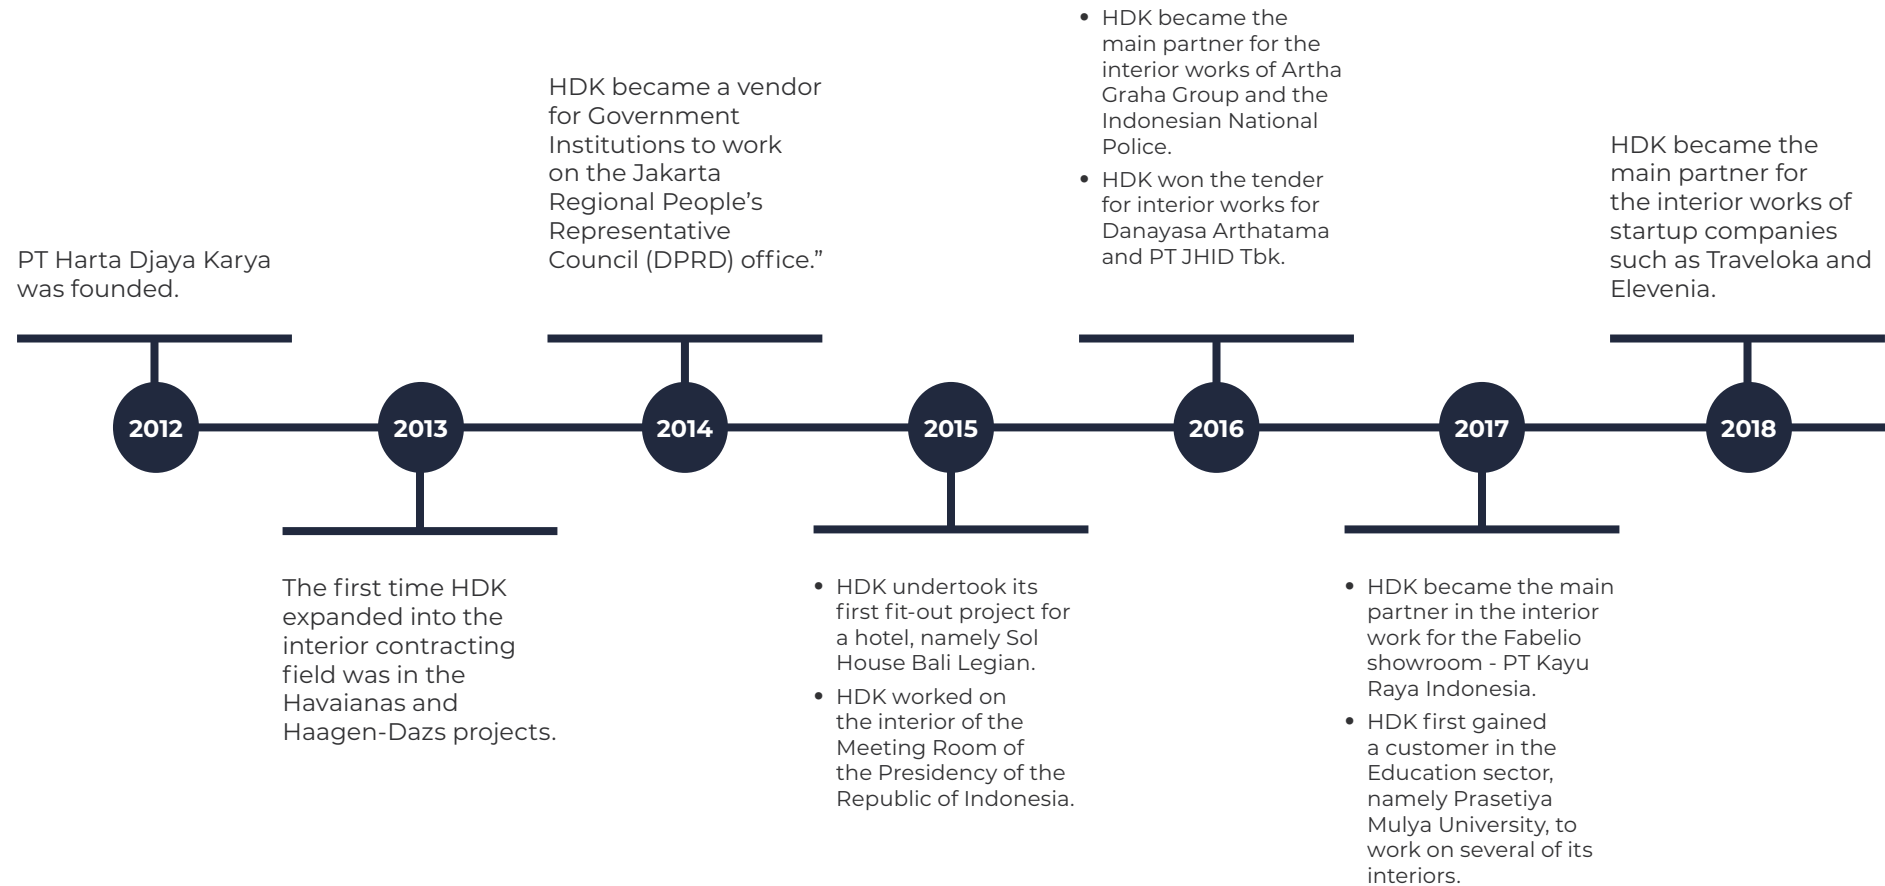

Production Process

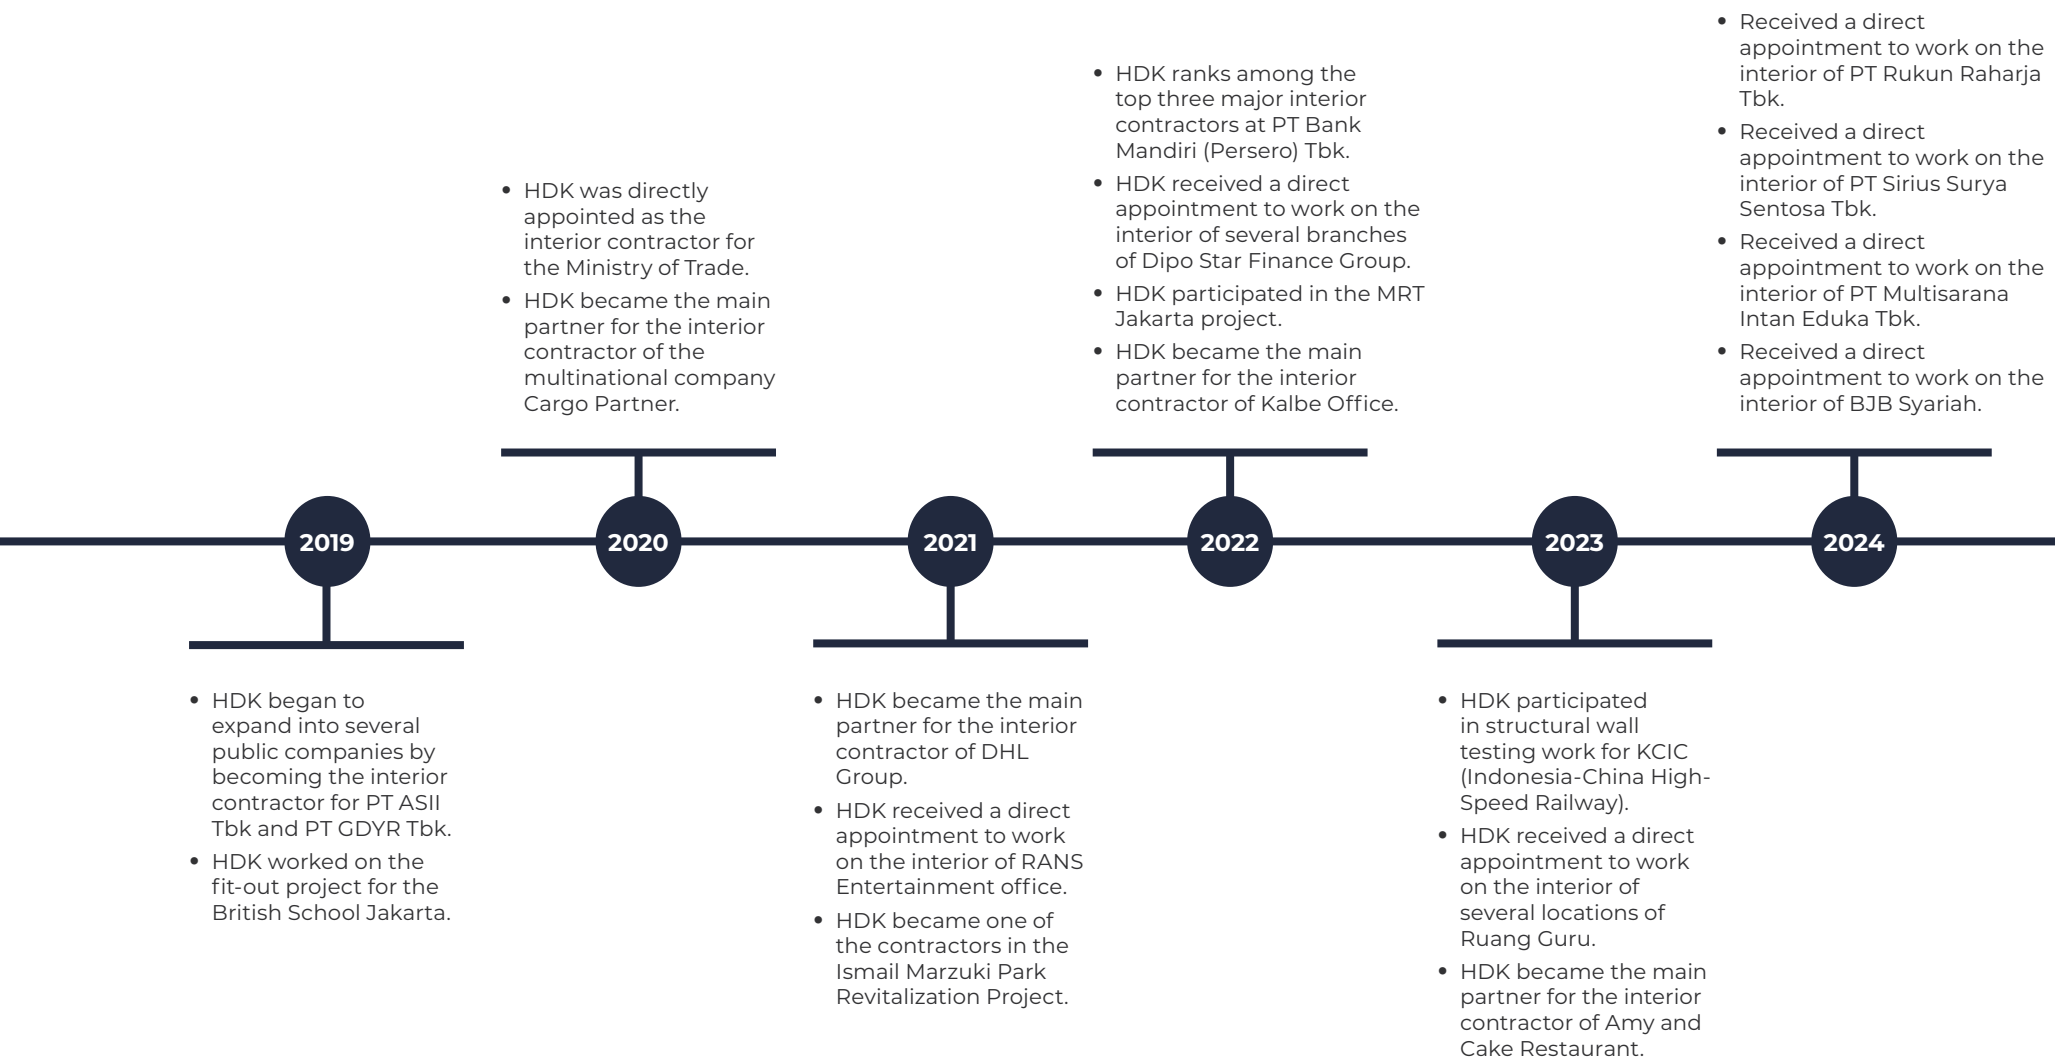

We initially create the furniture's based on sketches or design references. After that we prepare the CAD drawings and list all technical specifications and then produce samples for approval.

**We produce
primarily custom
furnitures,
acesories
and, lighting
for residential,
commercial and,
resort projects.**

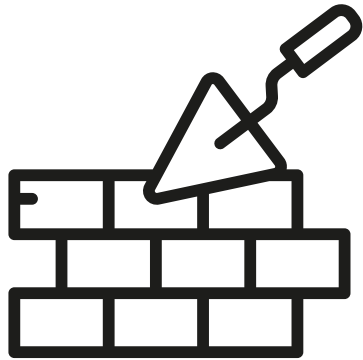

Track Record

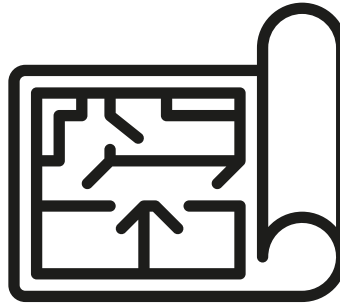

OUR SERVICES

Our approach to each project begins with listening carefully to identify goals and objectives for these following projects.

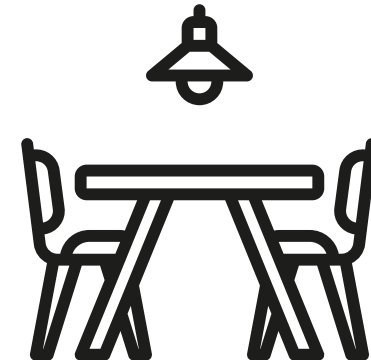

Interior Construction

Whether its residential, commercial, retail, outlets, public building projects with the use of our creative ideas, latest materials, modern technology & intricate detailing. For us, a space is not just four walls. It involves applying a design that ideally combines functionality with aesthetic, with the ultimate goal of creating design interior that will captivate your imagination.

Design Fit Out

Although all of the elements begin with a word, in interior design, it starts from a design itself and material picking. At INTERRA, we incorporate end-to-end process within a project by providing all the required services to design & build your interior space by managing the project from the first point of contact through to handling over the keys.

Furniture Manufacturing

We provide of loose furniture and fittings. The above professional services may be segmented into distinctive stages should this be a requirement of the project and tailored according to the clients' brief. All the wooden custom made furniture is manufactured locally by one of our associate companies.

OUR PROCESS

We're listening

We listen and translate clients' brief into what they need. Tell us everything, we are here to listen and help you.

We develop the concept

Before starting the plan, we learn about your company, what you work, your vision and values. Furthermore, we will make a concept based on all of the research.

We take care of the detail

To build the design into reality, we transform 3D design into 2D drawings for project team.

We Initiate the meeting

Let's get more in touch before we start all of your needs. Tell us about what time you need, and we will set everything up.

We develop the design

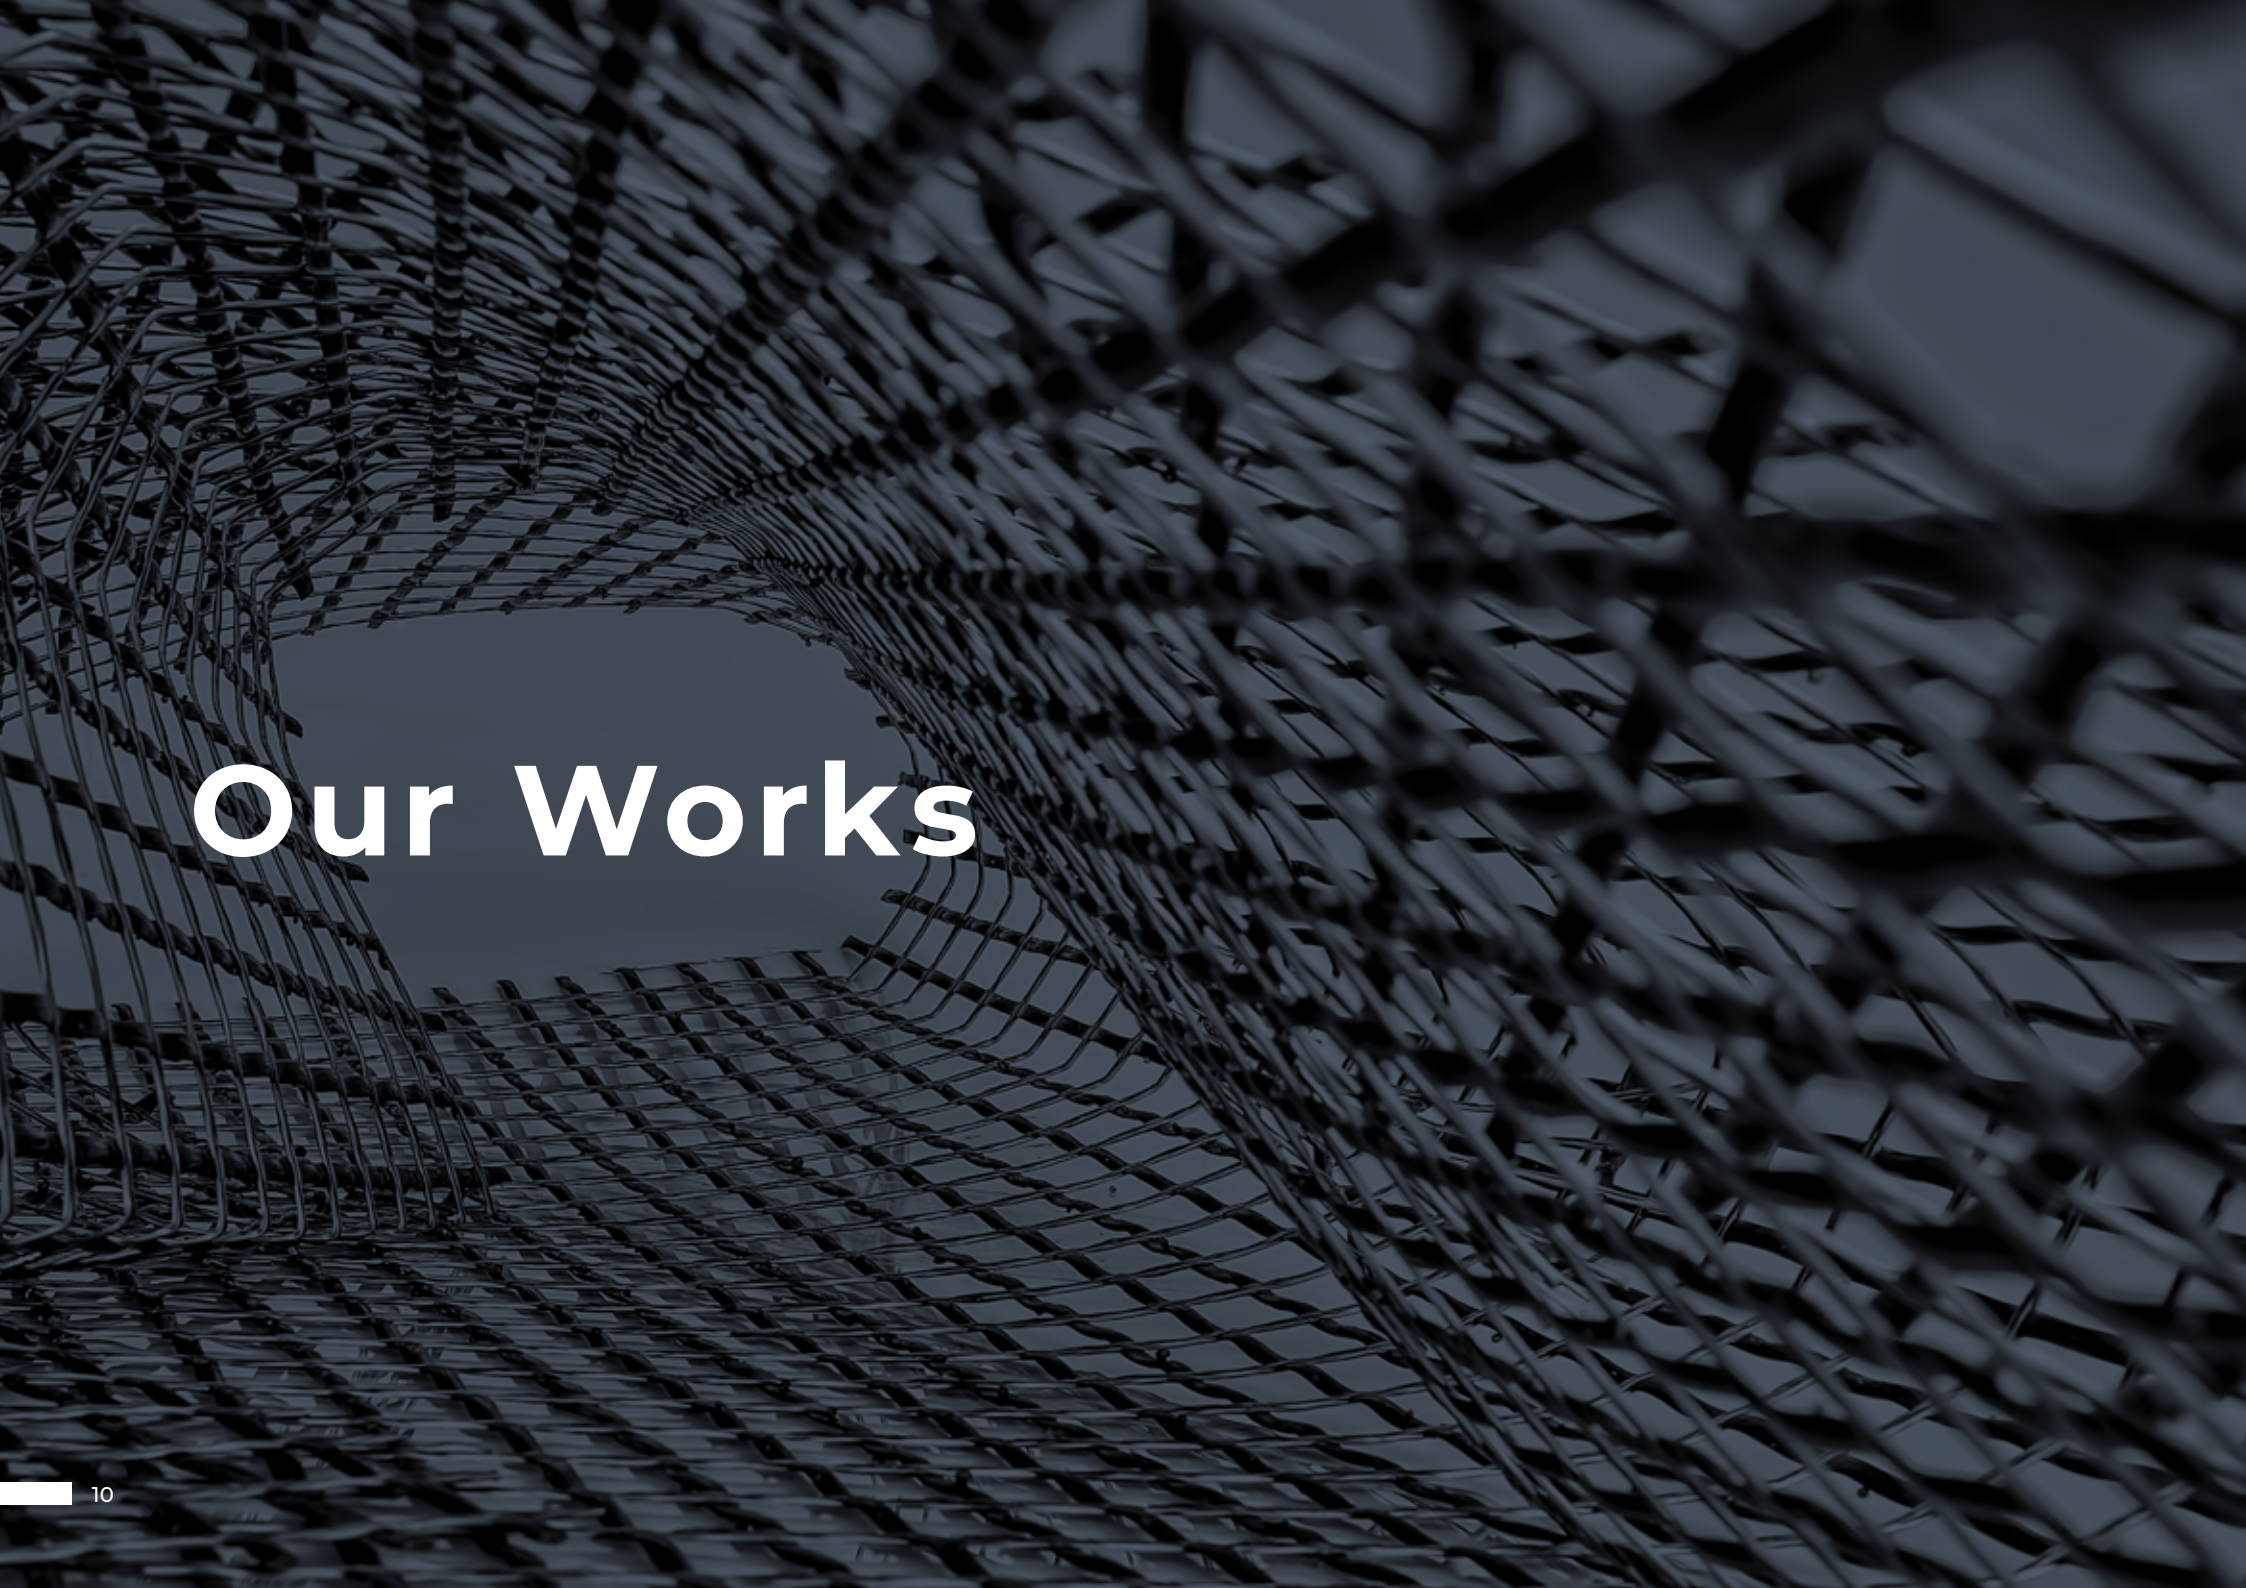

How can people imagine something beautiful without a visual? That's why design matters, isn't it? After do a research, we will develop a design to make you imagine how we deliver your idea.

We start your dream

Let's the magic hand of our project expertise do their work, and stay calm because we are still always be your side to give you the updates.

Let's talk about happy beginning!

In the end, we will meet you for a celebration toast, start a conversation about happy ending while enjoying your new place.
